

# Android Stuff

## Customization

### Delete System Apps

```
adb shell
su
mount -o rw,remount /system
rm -rf /system/app/myApp.apk
rm -rf /data/data/com.example.myapplication
mount -o ro,remount /system
exit
exit
```

Maybe this works:

```
adb shell rm /system/app/MyApp*
adb uninstall org.my.app
```
